

PCX1000 License Agreement:

- 1) Each installed license and Hardlock must be registered with EQUITRON in order to obtain your activation code.
 - 2) Every computer running PCX1000 must have a Hardlock in order to function properly.
 - 3) When configuring SERVER and WORKSTATIONS, each machine must have a separate Hardlock with the same serial number.
 - 4) In order to apply for a version upgrade, you must have a valid license already installed.
- The following examples might help you understand better how the licenses are to be configured:
